## CAVE

v., informal, to give in or surrender under pressure

*He finally caved and agreed to their demands.*

## SCAD Polytechnic College Conducts Multi-Department Skill Training for First and Second-Year Students

SCSCAD Polytechnic College successfully organized a comprehensive Skill Training Program for first and second-year students on 15 December 2025 at the college campus. The program was designed to enhance students' practical skills and provide interdisciplinary exposure aligned with current industry requirements.

For first-year Mechanical Engineering students, hands-on training was conducted on ARC & Spot Welding, 3D Modelling, and CNC Programming, enabling students to gain foundational knowledge in fabrication, digital design, and automated machining processes. These sessions emphasized safety practices and real-time industrial applications. Students from the Electrical and Electronics Engineering (EEE) department participated in Simulation Level 2, which helped them strengthen their understanding of circuit behavior and virtual testing methods.

The Civil Engineering department offered training on Building Plan Approval Drawing, providing insight into professional drafting and regulatory standards.

Meanwhile, Computer Science and Engineering (CSE) students were trained in Java Programming II, enhancing their programming proficiency and problem-solving skills.

The skill training program highlighted SCAD Polytechnic College's strong commitment to holistic education and industry-oriented learning, empowering students with practical knowledge and confidence for their future careers.

## THOUGHT OF THE DAY

***"Take risks in your life. If you win, you can lead. If you lose, you can guide."***

— Swami Vivekananda

**Agriculture Skill Training Program on Tractor Servicing and Licensing Held at Tirunelveli**

A comprehensive Agriculture Skill Training Program was organized on 15 December 2025 at the Tamil Nadu Agriculture Department, Tirunelveli, with the objective of strengthening practical skills related to modern agricultural machinery. The training focused on Tractor Servicing and Licensing, addressing the growing need for skilled personnel in the agricultural sector.

The 27-day training program was designed to provide participants with in-depth theoretical knowledge as well as hands-on experience in tractor operation, routine maintenance, troubleshooting, and safety practices. Special emphasis was placed on understanding licensing procedures, government regulations, and compliance requirements to ensure safe and lawful operation of agricultural machinery.

The program aimed to empower participants with employable skills, improve productivity in agricultural practices, and promote the efficient use of farm equipment. Such initiatives by the Tamil Nadu Agriculture Department play a vital role in enhancing rural skill development and supporting sustainable agricultural growth.

The training program stands as a significant step towards modernizing agricultural practices and creating skilled manpower for the farming community in and around Tirunelveli.

**SCAD Polytechnic College Hosts Online Alumni Interaction on Cloud Technologies**

SCAD Polytechnic College successfully organized an Online Alumni Interaction Programme on 15 December 2025, providing students with valuable exposure to industry trends and professional insights. The session featured Mr. Venkatachalapathy, a proud 2005 batch alumnus of the ECE department, who is currently working as a Solution Architect at Dell Technologies Ltd., Bangalore.

During the interaction, the resource person delivered an informative session on Cloud Technologies, explaining core concepts such as cloud computing models, virtualization, scalability, and real-world enterprise applications. He also shared his professional journey, highlighting the skills, certifications, and continuous learning required to succeed in the rapidly evolving IT industry.

The session offered students an opportunity to interact directly with an industry expert, clarify their doubts, and gain guidance on career planning and emerging technologies. Mr. Venkatachalapathy encouraged students to focus on skill development and adaptability to meet global industry standards.
