SEVERN GLOCON VALVES - PLACEMENT 2024

The process of identifying, interacting with, and employing new talent is known as campus recruitment. High volume recruitment requirements are the main reason why colleges conduct recruitment. Working with universities and going to employment fairs to make connections with college students and recent grads are also parts of the process. 66 third-year students from our college took part in an interview held on 2023 October 18 and 19 by Severn Glocon Valves Pvt,Lmt, Chennai. The results of the interview were revealed on 21st November 2023 . Out of the students who applied, seven were chosen from our college. Four students from the EEE department, one from the automobile department, and two from the mechanical department

ONLINE WEBINAR

Webinars serve as a valuable support system that helps teachers interact with distant learners more effectively while also having multiple positive effects on students. Webinars have many advantages, too many to list here. On November 22, 23rd, an online webinar on the topic of successful innovators was held for the students in the mechanical department. Dr. I. Aatthisugan, an assistant professor at the SRM Institute of Science and Technology in Chennai, was the guest of honor for this programme, which was expertly organized by Mr. Prabhu Lecture/Mechanical.

INTERNSHIP TRAINING

An internship can help you gain practical experience in the sector. It might acquaint you with the regular rigors and obligations of a career without requiring you to commit fully to that specific subject. It can also help you decide if a certain job path aligns with your personality and skill set. 28 third-year students from the CSE department are on their second day of internship training at TCDS Academy, Ambasamudram, because our college places a great importance on student careers.
