

MOTIVATIONAL PROGRAMME FOR STUDENTS

CLICKS OF THE DAY SCADCET AUDITORIUM

10 JULY 2023

Motivational programmes help students focus their attention on a key goal or outcome. In doing so, they are not confused by possible distractions, and are therefore able to maintain their attention for longer periods of time. Students who are motivated display goal-oriented behaviors.

MOTIVATIONAL PROGRAMME FOR STUDENTS

Our SCAD Institutions always give importance to students' academic activities as well as their well being. Today (10/07/2023), a one-day motivational programme was arranged for both SCAD Polytechnic College students and FX Polytechnic College students. Dr. I. Jegan, an international motivational speaker, was the chief guest.

He introduced the programme by giving examples from present day situations and from his own experience. He entertained the students with jokes and made them think the same way. He gave the students a chance to showcase their talents. It was very helpful for them, they gave their feedback at the end of the programme.

MOTIVATIONAL PROGRAMME

(SCAD POLYTECHNIC COLLEGE & FX POLYTECHNIC COLLEGE)

Dr. S. John Kennady, Director of Admission and Activities/ SCAD Group of Institutions, was also present in the meeting. Principals and Administrative Officers of SCAD Polytechnic College and FX Polytechnic College arranged all the necessary. All the students and Faculty members from both colleges attended the programme.
