Students getting proper knowledge about the institution they are studying helps them in every activity they do on this campus. Today, a campus tour for first-year students was arranged. Each and every student was introduced to all the blocks in the college; they visited every lab and library. The staff in charge and lab assistants explained the instruments and their uses.

The staff members also gave instructions on how to behave in the labs. To an extent, they were brought to the Special School on campus; the staff members there talked about the special kids, and our students spent some time with them. They were also brought to the bio-plant on campus, where Mr. J. Monimaran, the principal, explained about the bio-charcol production and its process.
